## Management of Scoliosis for Non-Surgical Providers

**It's Clear, Scoliosis is a whole body phenomenon, Be Smart, Learn how to apply multi-disciplinary clinical applications**

- This Seminar is part of a Series designed to educate Multi-disciplinary providers interested in Scoliosis Clinical Applications.
- Learn the 5 mistakes non-surgical providers tend to make with Scoliosis patients.
- Become the Scoliosis Expert in your Practice and develop co-management opportunities with our network of providers.

## Marc Lamantia D.C.

*Chiropractic Neurologist, Co-Founder of Scoliosis Systems LLP*

Dr. Lamantia is a lecturer, clinician, and leading authority on non-surgical scoliosis treatment.

He is dedicated to educating and helping healthcare professionals manage scoliosis without repeating the mistakes which continue to interfere with successful non-surgical management.

Instructors:

Steven Geanopulos D.C., Gary Deutchman D.C., Daniel Pagan DPT
